

Institute of Sensor and Actuator Systems, TU Vienna  
and  
4M Network of Excellence

invite you to an industrial workshop on

## Devices for Harsh Environments

### Materials, Processing, Characterisation

The workshop will take place on

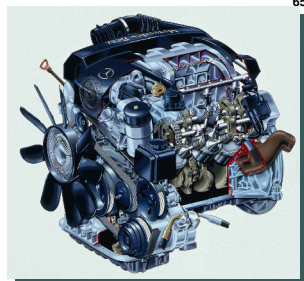

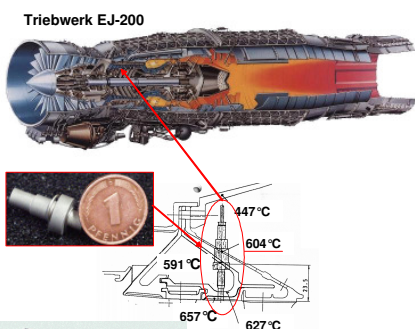

**June 8<sup>th</sup>, 2009, 9 a.m. - 5 p.m. at TU Vienna, Austria**

(Meeting location: 1040 Vienna, Floragasse 7, Ground Floor, Conference room No.1).

The main goal of the workshop is to present recent achievements in the field of micromachined devices operated under harsh environmental conditions such as temperature, aggressive media etc. Topics are related to material aspects, novel devices and their evaluation and the corresponding approaches for packaging and system integration. This event will provide an opportunity to improve technological know-how, to identify co-operation partners, to get informed about similar activities and to extend personnel networks.

*If you would like to present your research activities within this topic,  
please contact us **before May 8<sup>th</sup>, 2009.***

To cluster the contributions for an attractive workshop program we ask you to prepare a **one page Abstract** including figures.

#### Who should participate:

- Industrial staff
- Academic and scientific staff from
  - ▽ universities
  - ▽ R&D institutions
  - ▽ Kind centers, etc.

**Looking forward to seeing you in Vienna!**

**Prof. Dr. Ulrich Schmid**  
Workshop Chair

**Dr. W. Smetana**  
Workshop Co-Chair

**No additional registration fees are required!**

**Please confirm your participation as soon as possible!**
